This crowd boiled and several noted the phrase "KISS" it quite prominently at the bill, etc.

Major problems like this could soon disappear the way it disappeared. It will probably be a long time before we see it again, but it is a good idea to have the system in a state where it can be used for a long time.

IEEE students shine

by E.G. Lumsden

Justi Lumbis and Brett Gray took third year telecommunication students at Conestoga College over 400 miles at the Institute of Electrical and Electronics Engineers (IEEE) National Program Night which was held last Thursday March 29 at the Sheraton Motor Inn.

The students presented two short deals with telecommunication material at a table providing lunch, got two articles from the IEEE Journal of the Engineering sponsored by Hewlett-Packard (Canada) Ltd.

John Lumbis also a third year student in telecommunication was the first runner up for his presentation on a short channel video signal filter with two subchannels.

Lumbis and Gray both received a Hewlett-Packard (Canada) Ltd. award and will have the opportunity to attend a two-day course at the National Convention and it they also may receive \$100 and have their paper published in an

international journal.

Paul Pearson, a student in the Electrical Engineering program, collected Hewlett-Packard's sponsorship of the evening was awarded to the Conestoga Institute branch of the IEEE.

Without that support the student papers might as well as have been lost to "poor" to exist.

The master of ceremonies was Steve Hocking, the area sales manager for Hewlett-Packard (Canada) Ltd.

The judges were Doug Johnson, Area General Manager for Toronto for Hewlett-Packard (Canada) Ltd., Dave Bagg, Manager of Educational Services for the Ontario Education System, and Don Macgregor, the General Manager for Hewlett-Packard.

Three students were awarded prizes for their papers which were judged on their originality, logical presentation, technical merit, communication skills and general imagination.

There were also awards from the University of Waterloo who placed first and second in their respective category.

Half a billion in support

The Ontario Government will provide \$500 million in operating support to Colleges of Applied Arts and Technology in 1985. This announcement was made by Education Minister Keith Martin.

This represents an increase of 13 per cent over the \$433 million provided in 1984 and reflects the Provincial Government's commitment that 13 per cent would be paid per student for public sector post-secondary education.

"Fully required during 1984-85, more substantial increases likely related to the needs of students and staff who must meet the challenge of new technology," said Colleges and Universities Minister Keith Martin.

Tuition fees for the second semester 1984-85 will be increased by the same rate to the increase in the operating grant. The new start tuition fee will be \$21.95 in 1985-86.
